regarding: co-operation with
SigDelta
Nowogrodzka 62C
02-002 Warszawa

To whom it may concern,

I would like to recommend and acknowledge SigDelta, especially Łukasz Kobyliński, for its contribution on development of Yosh.AI in area of voice assistant creation at the initial phase of the product development. Łukasz has continuously shown his vast knowledge in the area of designing as well as implementation of ML solutions for creating voice assistants. On top of the he always shown very professional attitude and commitment to the project.
